

It's Getting Cold

Look out the window
Can't you see the storm
Trees without foliage
And the rains pouring down

It's getting cold
It's getting cold

This is the time
When the year turns to it's end
Cold winter ev'nings
Snow lies on the land

It's getting cold
It's getting cold

Can't you see that it's getting colder
From day to day
Can't you see that it's getting colder
From day to day

So many people
Have a heart of stone
They care only for money
So they are alone

They're getting cold
They're getting cold

And when you say
You don't need my love
Showing no feelings
I know that you're that kind of

You're getting cold
You're getting cold

I want you but there's nothing I can do
You're getting cold inside
I want you but there's nothing I can do
You're getting cold inside
